BUILDING THE SYSTEM TOGETHER

Co-convened by UNB's Pond-Deshpande Centre and School of Leadership Studies

UNB Systems Thinking & Social Innovation Community of Practice

Cross-campus convenings on systems thinking & social innovation.

Are you working on something is addressing complex problems in your community, your program, or your corner of UNB? This community of practice brings together faculty, staff, and students from across the university who are curious about social innovation and want a space to learn from each other.

We'll share what we're working on, test ideas, and connect people doing related work who might not otherwise cross paths.

No prior experience required, just curiosity and a willingness to show up.

If that sounds like you, we'd love to have you join us.
